

STATISTICAL ANNEX

September 2021

TABLES:

- Table 1. Key indicators of VPF operations
- Table 2. Net assets of VPFs
- Table 3. Market share of VPFs (measured by net assets)
- Table 4. Structure of VPFs by asset class
- Table 5. Currency structure of VPFs
- Table 6. Number of members (membership contracts) by fund
- Table 7. Number of active members (contracts) by fund
- Table 8. Number of users by fund
- Table 9. Number of active users by fund
- Table 10. Contribution payments, withdrawals, transfers between funds and fees charged
- Table 11. Securities trading
- Table 12. Costs related to the investment of funds assets
- Table 13. Changes of FONDex and BELEX15 indices and the EUR/RSD exchange rate
- Table 14. Number of management companies employees and FTE
- Table 15.1. Asset structure: *Generali Basic*
- Table 15.2. Asset structure: *Raiffeisen Future*
- Table 15.3. Asset structure: *DDOR Garant Ekvilibrio*
- Table 15.4. Asset structure: *Dunav*
- Table 15.5. Asset structure: *Generali Index*
- Table 15.6. Asset structure: *DDOR Garant Štednja*
- Table 15.7. Asset structure: *Raiffeisen Euro Future*

CHARTS:

- Chart 1. Net assets of VPFs
- Chart 2. Market concentration (measured by HHI)
- Chart 3. Asset structure of VPF industry
- Chart 4. Number of contributing members and percent share of active members
- Chart 5. Number of contributing users and percent share of active users
- Chart 6. Contribution payments
- Chart 7. Withdrawals
- Chart 8. Transfers between funds
- Chart 9. Purchases, sales and maturity of securities

METHODOLOGICAL EXPLANATIONS

Table 1, Key indicators of VPF operations

► **Net assets** (see Table 2, 3 and Chart 1, 2 for details)

in RSD mln

	Q3 2019	Q4 2019	Q1 2020	Q2 2020	Q3 2020	Q4 2020	Q1 2021	Q2 2021	Q3 2021
Net assets	43.483,67	45.245,48	44.646,01	45.144,40	45.861,88	47.018,21	47.712,92	48.203,57	48.804,75

► **Membership contracts and users** (see Table 6, 7, 8, 9 and Chart 4, 5 for details)

	Q3 2019	Q4 2019	Q1 2020	Q2 2020	Q3 2020	Q4 2020	Q1 2021	Q2 2021	Q3 2021
Number of contracts	272.819	275.833	277.615	277.650	278.457	279.495	279.536	282.403	286.389
Number of users	199.294	201.587	202.918	203.039	203.564	204.969	205.107	206.830	209.019
Average accumulated funds per user (in RSD)	216.645	222.826	218.265	220.436	223.312	227.367	230.563	230.843	231.220

Gender	Age structure								Total
	0-19	20-29	30-39	40-49	50-52	53-57	58-64	65+	
Male	392	6.045	21.892	40.838	12.177	14.430	13.420	8.679	117.873
Female	359	4.658	18.175	32.908	9.522	11.533	9.603	3.821	90.579
Total number of users	751	10.703	40.067	73.746	21.699	25.963	23.023	12.500	208.452
Percent share of total	0,4%	5,1%	19,2%	35,4%	10,4%	12,5%	11,0%	6,0%	100%
Accumulated funds as a percentage of total	0,0%	1,1%	12,3%	41,6%	14,8%	15,3%	12,4%	2,3%	100%

► **Contribution payments, withdrawals, transfers, fees** (see Table 10 and Chart 6, 7, 8 for details)

in RSD mln

	Q3 2019	Q4 2019	Q1 2020	Q2 2020	Q3 2020	Q4 2020	Q1 2021	Q2 2021	Q3 2021
Contribution payments	887,76	1.012,19	928,45	825,95	843,99	879,71	833,62	913,95	938,90
Withdrawals	388,40	351,27	558,67	492,32	624,98	483,65	528,79	592,26	543,70
Transfers between funds	69,30	39,12	80,83	82,77	31,37	57,59	27,94	43,59	26,29
Fees charged	152,24	159,45	158,96	158,17	161,67	165,31	164,13	168,47	172,09

► **Securities trading and costs related to the investment of funds assets** (see Table 11, 12 and Chart 9 for details)

in RSD mln

	Q3 2019	Q4 2019	Q1 2020	Q2 2020	Q3 2020	Q4 2020	Q1 2021	Q2 2021	Q3 2021
Total trading volume	14.419,99	10.678,48	15.350,72	1.991,36	4.708,12	4.297,13	17.787,21	5.660,09	7.634,49

- ▶ Table 1 is intended to offer a brief overview of the key indicators of VPF operations, and all the data, except the user structure, are given on a quarterly basis - as cumulative or end-of-quarter values. Data for the latest 9 quarters are shown.
- ▶ All the tables and charts, with the exceptions of Table 1 and Table 10, contain monthly data for all months since the start of the VPF operations. Depending on the nature of certain data, they represent either cumulative or end-of-month values. Certain data can be shown by clicking the "+" sign above the column labels in the worksheet (in XLS version of the document).
- ▶ User structures presented in Table 1 and Table 10 show the latest end-of-month data (Table 1) or end-of-year data (Table 10). Due to the complexity of the design, as well as the history of mild month-to-month changes, time series are not included in these tables.
- ▶ All the tables and charts which provide data series by individual funds or management companies only show data for funds/companies which are currently active. Data for funds/companies which ceased to operate can be shown by clicking the "+" sign beside the row labels in the worksheet (in XLS version of the document).
- ▶ In all the tables, "N/A" means that the data were not available or not applicable to the reporting period. For details on the specific data that contain this label, see explanations and special notes.
- ▶ In case of possible irregularities or restatements, some data may be revised, in which case, a special note will accompany the data.

EXPLANATIONS

- ▶ Table 1, 6, 7; Chart 4: Number of members (membership contracts) = number of individual membership contracts + number of members of pension schemes. This number represents, at the same time, the number of individual accounts.
- ▶ Table 1, 8, 9, 10; Chart 5: Number of users is the number of persons who are members of voluntary pension fund (or funds). This number is less than or equal to the number of members, due to the fact that each individual may conclude more than one membership contract, in one or more pension funds. The data on number of users are available since June 2008.
- ▶ Table 1, 10: All data on users, accumulated funds and membership contracts, presented in these tables, include only contributing users/members (see explanation which follows Table 6 and Table 8).
- ▶ Table 1, 11: Total fees include only the fees for the services rendered by the management companies, i.e. contribution fees and asset management fees. Account transfer fees are not included here, since they are charged based on actual transfer costs.
- ▶ Table 1, 13: Starting from October 2011, certain costs relating to the purchase, sale and transfer of securities, such as the fees for services of the Central Securities Depository and Clearing House, market organizer fees and tax liabilities, as well as the costs of the current maintenance of real estate in which fund assets are invested, are charged to fund assets. Before the new regulations entered into force, all costs related to the investment of funds assets were borne by management companies.
- ▶ Table 4, 16.x; Chart 3: Starting from October 2011, assets of the voluntary pension funds may be invested in investment units of domestic and foreign open-end investment funds, in conformity with the prescribed conditions and limitations.
- ▶ Table 5, 16.x: In classifying assets by currency, securities denominated or indexed in foreign currency, investment units of open-end investment funds denominated in foreign currency, real estate (since the values are appraised as euro amounts), as well as assets in foreign currency accounts are considered foreign currency assets. Other investments and all receivables are classified as dinar assets.
- ▶ Table 6, 8: Members (membership contracts) and users are classified in two categories: (1) contributing members/users - those who are still contributing and hence actively accumulating funds on their individual accounts, or who have stopped regular contributing but have not yet started withdrawing; (2) members/users receiving benefits - those who have started withdrawing from individual accounts (and are receiving scheduled payments). Before 2009, this classification was available only for members (contracts).
- ▶ Table 6: Average accumulated funds shown here represent the average of the funds in individual accounts, at the end of the considered month, and it is provided separately for contributing members and members receiving benefits. The data on average accumulated funds of members receiving benefits are available since January 2009.
- ▶ Table 7; Chart 4: Number of active members (contracts) is the number of individual accounts to which contribution has been made in the considered month.
- ▶ Table 7: Number of active pension schemes is the number of pension schemes for whose members contribution has been made in the considered month.
- ▶ Table 8: Average accumulated funds shown here represent the average of the funds per user, at the end of the considered month, and it is provided separately for contributing users and users receiving benefits. The data on average accumulated funds of users receiving benefits are available since January 2009. The data on average accumulated funds of contributing users are also shown in Table 10, as well as in Table 1 - on a quarterly basis.
- ▶ Table 8: Change in the number of users represents the change in the total number of contributing users, compared to the previous month. In other words, that it is the difference between increase and decrease in the number of contributing users, where increase represents the number of new users in the system, and decrease corresponds to the number of users who withdrew their funds completely (e.g. lump-sum payment) or started receiving scheduled payments. Data on increase and decrease in the number of users is available since January 2009.
- ▶ Table 9; Chart 5: Number of active users is the number of users who have, in the considered month, made contribution to at least one of their individual accounts.
- ▶ Table 9: Average accumulated funds of active users are the ratio of the total amount of accumulated funds in all individual accounts of active users to the number of such users. These data are available since January 2010.
- ▶ Table 10: Statistical territorial units are areas specified by the Regulation on Nomenclature of Statistical Territorial Units (RS Official Gazette, Nos 109/2009 and 46/2010). Data for the Region of Kosovo and Metohija are provided as aggregate figures.
- ▶ Table 10: The data on the number of inhabitants, number of employees and average gross and net salaries are the most current data available at the time of populating the table. The sources of these data are the official communications of the Statistical Office of the Republic of Serbia (SN40 for the number of inhabitants, ZP21 for the number of employees, and ZP14 for the average salaries).

- ▶ Table 11; Chart 6: Average contribution payment per user is the ratio of the total contributions to the number of active users in the considered month. The number of active users, and therefore this ratio, is available since June 2008.
- ▶ Table 11; Chart 7: Average lump-sum withdrawal per user is the ratio of the total lump-sum withdrawals to the number of users who withdrew their funds completely in the considered month. The number of users who withdrew their funds completely, and therefore this ratio, is available since January 2009.
- ▶ Table 11: Average contribution fee is the ratio of the total amount of contribution fees to the total contributions made in the considered month, and is expressed as a percentage.
- ▶ Table 13: Costs at the expense of management companies as a percentage of fees charged are the ratio of the total costs related to the investment of funds assets which are borne by management companies to the total fees charged by management companies in the considered month, and is expressed as a percentage.
- ▶ Table 14: Changes of FONDex and BELEX15 indices and the EUR/RSD exchange rate since the start of VPF operations are shown in annualized terms. The start of VPF operations is November 15, 2006, when the investment unit value for the first voluntary pension fund started being published.
- ▶ Table 15: Total FTEs (full-time equivalents) indicates the total workload of management companies' employees, which, besides the number of employees, also takes into account the engagement of each employee as a percentage of a full-time job. The precise data on that engagement (percentage of a full-time job), and therefore this indicator, are available since November 2011.
- ▶ Table 15: Net assets per full-time employee is the ratio of the total net assets of all VPFs to the total FTEs (full-time equivalents). This indicator is available since November 2011.

SPECIAL NOTES

- ▶ Table 1: The total number of users shown in the age and gender structures does not include the users that, based on the available data, could not be classified in any of the categories. The actual number of users in the system is often greater and is shown elsewhere in this report. The intention here is to present the user structure, and the abovementioned difference is insignificant and has no major impact on it. In this table, as well as in Table 10, only contributing users are included (see explanation which follows Table 6 and Table 8).
- ▶ Table 8: The total number of users at the industry level can be (and most often is) less than the sum of the number of users for each fund, because of the fact that one user may be a member of more than one fund.
- ▶ Table 9: The total number of active users at the industry level can be (and most often is) less than the sum of the number of active users for each fund, because of the fact that one user may be active in more than one fund, in the same month.
- ▶ Table 10: Aggregate figures provided at the Republic level do not always represent sums/averages of the table data. These figures also include users and accumulated funds which, based on available data, cannot be classified in a specific category (by territorial unit or by gender).
- ▶ Table 10: The average accumulated funds per user shown here are often lower than the amount shown in Table 1 and Table 8 for the same period, because they do not include the non-allocated funds (funds that are contributed to the fund, but are still held in a separate book-keeping account, since there is not enough information for these funds to be allocated to the members' individual accounts).
- ▶ Table 11; Chart 6: Before July 2007, data on contribution payments through employer contributors were not available as separate amounts. For that period, these amounts are included in individual payments.
- ▶ Table 11: Before January 2009, data on partial payments and purchases of annuities were not available as separate amounts. For that period, these amounts are included in lump-sum payments.
- ▶ Table 11; Chart 6, 7, 8: Before July 2007, data on transfers between funds were not available as separate amounts. For that period, these amounts are included both in contribution payments (as individual payments) and withdrawals (as lump-sum payments).
- ▶ Table 14: Pursuant to Article 48, paragraph 5 of the Law, returns on investment during the first year of operations of voluntary pension fund are not announced.
- ▶ On March 5, 2010, and based on the licence granted by the NBS, management company *HYPO* was merged into management company *Garant*, which continued operating under the name *HYPO-Garant*. Voluntary pension fund *HYPO* was merged into voluntary pension fund *Garant*, which also continued operating under the name *HYPO-Garant*.
- ▶ On December 13, 2010, the NBS granted management company *Delta Generali* a license for managing the voluntary pension fund *Nova penzija*, which now operates under the name *Delta Generali Index*. Until October 22, 2010, voluntary pension fund *Nova penzija* was managed by management company *NLB Nova penzija*, which ceased to operate.
- ▶ On December 24, 2010, and based on the licence granted by the NBS, management company *DDOR Penzija plus* was merged into management company *HYPO-Garant*, which continued operating under the name *DDOR-Garant*. Voluntary pension fund *DDOR Penzija plus* was merged into voluntary pension fund *HYPO-Garant*, which now also operates under the name *DDOR-Garant*.
- ▶ Table 7, 9, 11; Chart 4, 5, 6: Due to the funds merger and takeover in December 2010, payments made on these basis were recorded as an activity on the accounts of all members/users of funds that had been acquired (*DDOR Penzija plus*) or taken over (*Nova penzija*), regardless of whether they had real contributions to their individual accounts in that period. As a result, the number of active members and users of *DDOR-Garant* and *Delta Generali Index* voluntary pension funds, as well as the total number of active members and users in the VPF sector for December 2010 are shown in larger amounts in comparison to the real situation. At the same time, the presented average contribution payment per user is lower than actual.
- ▶ On April 5, 2013, and based on the licence granted by the NBS, voluntary pension fund *Triglav penzija* was merged into voluntary pension fund *DDOR Garant*.
