<b>TOTAL</b>		<b>17,52</b>	<b>15,52</b>

The table shows weighted average rates at the annual level (annualised contracted interest rate or narrow defined interest rate) in accordance with the Methodology for Calculating Interest Rates on Bank Loans and Deposits.

The shown interest rates represent accounting categories that equalize the present value of all future and existing obligations (loan, principal repayment, interest payment), excluding other costs agreed between the bank and the client, and as such, they may be higher than the agreed interest rates.
